

NATIONAL FOREIGN INTELLIGENCE BOARD

NFIB-86.1/6

19 May 1983

MEMORANDUM FOR: National Foreign Intelligence Board

SUBJECT: DCI Exceptional Intelligence Analyst Program 24 MAY 1983

1. Four years ago, the DCI Exceptional Intelligence Analyst Program was established as a long-term program to improve the quality of intelligence analysis by providing promising mid-career professionals the opportunity to tailor a training project to their own particular needs. Candidate projects include sabbaticals at home or abroad, university study, independent research, or temporary assignments to other government agencies. Projects are undertaken for a period of up to two years with all training expenses underwritten by the Intelligence Community Staff and salaries continued by the analysts' parent organizations. Additional details regarding this year's program will be included in a brochure which will be distributed to your training offices.

2. I am deeply interested in improving intelligence analysis and am convinced that this program can make a very real contribution to that end. I encourage each of you to nominate your very best people, recognizing that the sacrifice of their short-term absence while in training will pay off handsomely in long-term gains. I expect to see the program continue at its present level of activity, i.e., approximately 15 participants per year at an average cost not to exceed \$25,000.

3. The program is administered by the Intelligence Community Staff's Planning and Policy Staff working closely with the designated agency points of contacts shown at the attachment.

4. Thank you for your continuing support of this important program.
